

SAVE:1999

Thanks for writing. We are sorry to have to send just this single form but the response from the STARLOG article has been so great that it exhausted our supply of organization and convention leaflets long ago. As soon as we have more printed up we will send you the entire package.

The National SAVE:1999 Alliance was formed in December of 1976 when the word came out that SPACE:1999 might not be renewed for a third year. We have been working since that time to keep SPACE alive. Even though, at this time, we have not been able to get SPACE back we have kept it from being forgotten. One of the leaflets you will receive soon will tell you some of the things you can do to help SAVE:1999.

Another function of the Alliance is to help bring SPACE fandom together. For this reason we are acting as a 1999 style Welcommittee and will be referring, when possible, all new members to other fans and fan clubs.

For those of you who have asked about the convention, all the information we have to date is in the convention information leaflet. There are a few comments we would like to make concerning the con, in order for you to have some information until you receive the con leaflet. First, the dates have been changed from those mentioned in STARLOG 11. The new dates are July 28-30, 1978, one week earlier than previously announced. Due to the large interest in the convention we had to move to larger facilities and this necessitated the change of date. The new dates are firm. The location is the Sheraton Hotel in Columbus. We have invited all of the cast members from both Year 1 and Year 2. We have also extended invitations to Gerry Anderson and Brian Johnson. Information on tickets and rooms are included in the con leaflet.

We hope that we have answered some of your questions. We hope to be able to send out all the rest of the information in the next few weeks. In the mean time if you have any questions or comments please feel free to write to us. We do ask that you enclose a SASE as our postage bill is unreal. Thanks for your interest, and remember, it is through us that SPACE:1999 will stay alive.

Dear Tony,

Thanks for writing. Sorry to take so long to get back to you but the response from the STARLOG letter has been very heavy. I'll be sending more information out to you as it becomes available. Thanks for telling your SPACE:1999 friends to write to us. We are trying to make our list of '99 fans as complete as possible. If you have any questions or comments please feel free to write anytime.
